
The LiteracyCorps program at UNC-CH provides literacy tutoring to youth, adults, and English-language learners in Durham County.

Through College Advising Corps grants UNC-Chapel Hill advisers promote college access in low-income communities in Bertie, Durham, Halifax, Hertford, and Warren Counties.

With US Department of Education funding, researchers from the FPG Child Development Institute at UNC-CH are preparing teachers in Gates County to design effective, research-based educational programs for children with Autism Spectrum Disorder.

USDA sponsored SNAP-Ed/No Kid Hungry at UNC-CH’s Center for Health Promotion and Disease Prevention expands and promotes access to healthy foods available through underutilized federal child nutrition programs in Durham and Pitt Counties.

With funding from the US Department of Education, researchers at the FPG Child Development Institute are studying how early education reduces achievement gaps related to race and income in rural areas such as Vance County. The FPG Early Learning Network Team is one of only six teams across the country who were awarded funding by the Institute of Education Sciences to conduct this work.
