#### SNAP-Ed at UNC-CH’s Center for Health Promotion and Disease Prevention is a USDA funded community based research project that makes locally produced healthy foods more accessible to SNAP recipients in Rockingham County.

- With funding from NSF, PEARL (Peers Engaged as Resources in Learning), provides foundational research on small group learning in middle and high school mathematics classrooms in Chatham and Person Counties.

- The Center for Health Promotion and Disease Prevention is examining dissemination of patient-centered outcomes research among small primary care practices in Guilford County. UNC-CH has partnered with over 250 practices caring for 800,000 adult patients in this effort geared to reduce cardiovascular risk across the state. UNC researcher Sam Cykert is a founding member of the Greensboro Healthcare Disparities Collaborative, a group focused on cancer disparities and chronic disease care.

- Research by Donna Havens at the School of Nursing is improving nursing practice and patient care in Chatham County. Her work includes three HRSA-funded initiatives focused on improving communication and collaboration and staff nurse decisional involvement in Emergency Departments in rural NC hospitals.

- With funding from the CDC, the UNC Injury Prevention Research Center developing innovative research to prevent motor vehicle-related injury, violence against children, prescription drug overdose, traumatic brain injuries, domestic violence, and older adult falls in Alamance, Chatham, Guilford and Lee Counties.
